Portofolio : [Data Analis](#) | [Desain & Multimedia](#)

Summary

A mathematics graduate with specialization in data cleaning. Has a proven track record in handling large scale datasets, building multi stage data deduplication systems, and developing automated geospatial solutions. Experienced in using Google Spreadsheets, Python programming, and Google Apps Script, as well as leading research projects.

Education

Bachelor of Science in Mathematics Sep 2021 - Jul 2025
Sunan Gunung Djati State Islamic University | **GPA 3.64/4.00**
Major Courses & Specializations: Regression Analysis, Time Series Forecasting, Biostatistics, Data Mining (Classification & Clustering Techniques).

Experience

Statistical Assistant Dec 2025 – Jun 2026
Badan Pusat Statistik (BPS) Kota Bogor

- Cleaned over 191,000 records from the 2026 Economic Census database using Python , successfully eliminating more than 46,000 duplicate entries caused by inconsistencies in name and address formats.
- Built an automated system for retrieving location coordinates via Google Apps Script using a multi account data splitting strategy, successfully reducing API usage costs to Rp0.
- Extracted RT/RW data from unstructured address information using Regex, achieving a spatial and coordinate validity rate of up to 98% for field verification accuracy.
- Optimized the survey form creation process through the integration of Google Sheets, Apps Script, and AI, successfully reducing the time required from 2 hours to just 10 minutes.

Intern Dec 2024 – Feb 2025
Direktorat Jenderal Pajak (DJP) - KPP Pratama Bandung Cibeunying
Managed and executed internal tax administrative tasks, successfully reducing turnaround time from an estimated 2 weeks to just 4 business days through optimal workload distribution among the team.

Organization

Volunteer | Gerakan Mengabdi dan Membangun Desa Feb 2022
Holding a public awareness campaign on COVID-19 prevention in Siderang Legok, Garut Regency.

Head of the Multimedia Division of the Mathematics Festival Jul - Dec 2024
Himpunan Mahasiswa Matematika - Universitas Islam Negeri Sunan Gunung Djati

- Successfully increased the number of views on Instagram Reels content by 830%.
- Increased publicity for the event, resulting in 252 team participants in the 2024 Math Competition (West Java Governor’s Cup).

Research

Indonesian Young Scientist Association (IYSA) 2023-2025

- Adaptive Encryption for Iris Images using Arnold's Cat Map (2025) – Team Leader & Principal Investigator. Developed a cryptographic image encryption matrix transformation algorithm for biometric security. (Awarded a Gold Medal).

- Mathematical Modeling of Bee Population Growth and Honey Production (2023) – Formulating a qualitative framework for biological population growth integrated with the context of the Qur'an (Surah An-Nahl: 69). (Won a Silver Medal).

Sunan Gunung Djati State Islamic University

2021-2025

- Diagonalization of Antidiagonal Matrices and Antidiagonalization of Matrices (Research in Matrix Algebra).
- Forecasting the Number of Drinking Water Customers in Bandung City in 2022 (Time Series Modeling Using the ARIMA Method/Forecasting).
- Multiple Linear Regression Analysis of BPJS Health PBI Coverage in West Java in 2022 (Econometrics & Policy Analysis).
- Biostatistics Research Project: The Relationship Between Smoking Habits and Lung Cancer (Categorical Data Analysis & Hypothesis Testing).
- Binomial Logistic Regression Model for Predicting the Risk of Heart Disease (Predictive Health Modeling & Classification Analysis).

Technical Skills

- Primary Programming Languages: Python (Pandas, NumPy, GeoPandas), JavaScript (Google Apps Script)
- Data Science & Statistics: Fuzzy String Matching (RapidFuzz/Fuzzy Wuzzy), Regular Expressions (Regex), Time Series Forecasting, Regression Analysis (Linear, Multiple, Logistic), Data Mining (K-Means Clustering).
- Software & Tools: Excel (Advanced, XLOOKUP, Pivot Tables), SPSS, R Studio, Canva, Photoshop.

Achievements and Certifications

- Gold Medalist – National Invention Competition for Young Muslim Scientists (NICYMS) | 2025
- Silver Medalist – International Invention Competition for Young Muslim Scientists (IICYMS) | 2023
- English Skill: TOEFL ITP Score: 600
- Microsoft Office Specialist (MOS) Certification – Excel
